PROJECTS AND PUBLICATION

Item Search Android App

Android Studio, Java, Node.js, JSON, Volley, Picasso

- Developed an Android application integrating Node.js for the backend, enabling users to search and view eBay products, save items to a wishlist, and share on Facebook

eBay Product Search Application

Angular, Node.js, Typescript, Bootstrap, HTML5, CSS3, MongoDB, JSON, GCP

- Built a responsive web application with Angular, Bootstrap, and Node.js to fetch products via a RESTful API, store product wishlists using MongoDB, and host the application on Google Cloud Platform (GCP)

eBay Item Search Application

Python, Flask, JavaScript, HTML5, CSS3, JSON, GCP

- Created a web application for fetching items and details using the eBay API, with search parameters such as keywords, price, condition, and shipping, and launched the application on Google Cloud Platform

Predicting Customer Churn in Bank using ANN

Python, NumPy, Keras, TensorFlow, Sklearn, Pandas, Graphviz

- Designed a predictive model using Artificial Neural Networks (ANN), classifying customer attrition rates in a bank with an accuracy of 86.31% and visualizing the Neural Networks for clear interpretation and insights

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, Typescript, SQL
- **Frontend Technologies:** HTML5, CSS3, Sass, Angular, Flask, Bootstrap, jQuery, AJAX, React
- **Backend & Cloud:** RESTful APIs, SOAP, Node.js, Google Cloud Platform (GCP), Spring Boot, Hibernate
- **Databases & Operating Systems:** Oracle, MySQL, MongoDB, PostgreSQL, SQLite, Windows, Linux, MacOS
- **Version Control, Tools & IDE:** Git, GitHub, npm, IntelliJ, Eclipse, VS code
- **Microsoft Office Suite:** Excel, PowerPoint, Word, Google G Suite

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**, Amazon Web Services (AWS), March 2023
- Python for Everybody Specialization by University of Michigan, through Coursera, April 2020

LEADERSHIP EXPERIENCE

- E-board member of the Web Technology Team for GRIDS (Graduate students in rising) at USC
- Volunteered in Force for Good, a sustainable tech solutions program, by creating WordPress website for NGO-Chalo Network
