

MIRAL GANDHI

Los Angeles, CA | 213-551-3684 | miral.gandhi4@gmail.com | <https://www.linkedin.com/in/miral-gandhi4> | <https://miral25.github.io/Portfolio>

EDUCATION

University of Southern California Master of Science in Computer Science Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Machine Learning for Data Science	Los Angeles, CA August 2023 – May 2025
University of Mumbai Bachelor of Engineering in Computer Engineering Coursework: Data Structures, Artificial Intelligence, Object Oriented Programming, Operating Systems, Distributed Systems	Mumbai, India August 2018 - June 2021

PROFESSIONAL EXPERIENCE

JP Morgan Chase and Co. Software Engineer II - Led global collaboration with cross-functional development teams by implementing 27 new application functionalities, adhering to coding standards, conducting code reviews, managing source control with Bitbucket, and streamlining build processes using Maven and Jenkins, ensuring high system reliability and performance - Built and deployed 4 fintech AMH applications across multiple environments (DEV, QA, UAT, PROD) using Spring Boot, Gradle, and Jenkins CI/CD pipelines, ensuring seamless deployment and a 30% increase in performance - Analyzed and resolved 11 critical technical issues, including patching security vulnerabilities and enhancing encryption algorithms, leading to a 35% reduction in live production system incidents - Achieved a 40% increase in team productivity by skillfully leveraging Atlassian tools, Bitbucket, JIRA, and Confluence, along with scrum methodologies, for agile project management, progress tracking, and documentation streamlining	Mumbai, India July 2021 - June 2023
International Digimedia Fullstack Web Development Intern - Designed front-end widgets, footers, & custom animations with HTML5, CSS3, jQuery, & Node.js for a Hospitality job portal - Resolved 4 critical bugs, optimized website performance, leading to a 15% reduction in bounce rate and a seamless experience	Mumbai, India June 2019 - June 2019

PROJECTS

Item Search Android App <i>Android Studio, Java, Node.js, JSON, Volley, Picasso, API</i> Developed an Android application with Android Studio, integrating Node.js for the backend, enabling users to search and view eBay products, save items to a Wishlist, and seamlessly share on Facebook	
Product Search Application <i>Angular, Node.js, Typescript, Bootstrap, HTML5, CSS3, MongoDB, JSON, GCP</i> Built a responsive web application with Angular, Bootstrap, and Node.js to fetch products via a RESTful API, store product wishlist using MongoDB, and host application on Google Cloud Platform (GCP)	
eBay Item Search Application <i>Python, Flask, JavaScript, HTML5, CSS3, JSON, GCP</i> Created an interactive web platform for fetching items and details using eBay API, with search parameters such as keywords, price, condition, and shipping, and launched application on Google Cloud Platform	
Predicting Customer Churn in Bank using ANN <i>Python, NumPy, Keras, TensorFlow, Sklearn, Pandas, Graphviz</i> Designed a predictive model using Artificial Neural Networks (ANN), classifying customer attrition rates in a bank with an accuracy of 86.31% and visualizing Neural Networks for clear interpretation and insights	
Fine Dine with Augmented Reality (AR) – Mobile App <i>Unity3D, Vuforia, Blender</i> - Developed an innovative AR restaurant app that enhanced customer satisfaction by 20%, enabling interaction with 3D dish visuals and ingredients through digital or physical menu card scans and animated feedback mechanism - Gandhi, M., Kolkur, S., Sakpal, R. & Madhwani, B. (2021, January). Augmented Reality Based Interactive Mobile Application for Restaurants. In Eleventh International Conference on Advances in Computer Engineering, ACE 2021	

TECHNICAL SKILLS

Programming Languages:	Python, Java, JavaScript, Typescript, SQL
Frontend Technologies:	HTML5, CSS3, jQuery, Angular, Bootstrap, React, AJAX
Backend & Cloud:	Node.js, Google Cloud Platform, Heroku, Spring Boot, Hibernate
Databases & Operating Systems:	Oracle, MySQL, MongoDB, PostgreSQL, GraphQL, NoSQL, Windows, Linux, MacOS
Version Control, Tools & IDE:	Git, GitHub, npm, IntelliJ, Eclipse, VS code

CERTIFICATIONS

AWS Certified Cloud Practitioner , Amazon Web Services (AWS), March 2023
Python for Everybody Specialization , University of Michigan, Coursera, April 2020
Machine Learning A-Z: Hands-On Python in Data Science , Super Data Science, Udemy, December 2019

LEADERSHIP EXPERIENCE

E-board member of Web Technology Team for GRIDS (Graduates Rising in Information and Data Science) at USC - Communicated technical concepts to non-technical committee members, facilitating collaboration & successful project outcomes - Revamped committee's website & collaborated with team members to organize tech events and workshops
Volunteered in Force for Good – Sustainable Tech Solutions Program Created WordPress website for NGO - Chalo Network & worked on modules for agent training and website translation by implementing different plugins in enhancing their online presence and facilitating community engagement
