

MIRAL GANDHI

Los Angeles, CA | 213-551-3684 | miral.gandhi4@gmail.com | <https://www.linkedin.com/in/miral-gandhi4/>

EDUCATION

University of Southern California

Los Angeles, CA

Master of Science in Computer Science (GPA: 3.85/4.0)

August 2023 – May 2025

Coursework: Web Technologies, Database Systems, Analysis of Algorithms, Machine Learning for Data Science

University of Mumbai

Mumbai, India

Bachelor of Engineering in Computer Engineering (CGPA: 3.9/4.0)

August 2018 - June 2021

Coursework: Data Structures, Software Engineering, Advance Algorithm, Object Oriented Programming, Open-Source Tech Lab

PROFESSIONAL EXPERIENCE

JP Morgan Chase and Co.

Mumbai, India

Software Engineer II

July 2021 - June 2023

- Led global collaboration with development teams by implementing 27 new features through enhancements & essential code fixes
- Built and deployed 4 AMH applications across multiple testing environments, including DEV, QA, UAT, and PROD using Spring Boot, Maven, Gradle, Artifactory and Jenkins, ensuring seamless deployment and 30% increase in performance
- Analyzed and resolved 11 critical technical issues, including identifying and patching security vulnerabilities and enhancing encryption algorithms leading to a 35% reduction in live production system incidents and improved safeguarding of sensitive data
- Achieved a 40% increase in team productivity by skillfully leveraging Atlassian tools, Bitbucket, JIRA, and Confluence, for agile project management, progress tracking, and documentation streamlining

International Digimedia

Mumbai, India

Web Development Intern

June 2019 - June 2019

- Designed and integrated front-end widgets, footers, and custom animations with HTML5, CSS3, jQuery, and Node.js for a Hospitality Industry job portal
- Resolved 4 critical bugs, optimized website performance, leading to a 15% reduction in bounce rate and a seamless experience

PROJECTS AND PUBLICATION

Item Search Android App

Android Studio, Java, Node.js, JSON, Volley, Picasso, API

- Developed an Android application with Android Studio, integrating Node.js for the backend, enabling users to search and view eBay products, save items to a Wishlist, and seamlessly share on Facebook

Product Search Application

Angular, Node.js, Typescript, Bootstrap, HTML5, CSS3, MongoDB, JSON, GCP

- Built a responsive web application with Angular, Bootstrap, and Node.js to fetch products via a RESTful API, store product Wishlist using MongoDB, and hosted application on Google Cloud Platform (GCP)

eBay Item Search Application

Python, Flask, JavaScript, HTML5, CSS3, JSON, GCP

- Created a web application for fetching items and details using eBay API, with search parameters such as keywords, price, condition, shipping and launched application on GCP

Fine Dine with Augmented Reality (AR) – Mobile App

Unity3D, Vuforia, Blender

- Developed an AR restaurant app that enhanced customer satisfaction by 20%, enabling interaction with 3D dish visuals and ingredients through digital or physical menu card scans and animated feedback mechanism
- Gandhi, M., Kolkur, S., Sakpal, R. & Madhwani, B. (2021, January). Augmented Reality Based Interactive Mobile Application for Restaurants. In Eleventh International Conference on Advances in Computer Engineering, ACE 2021

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, JavaScript, Typescript, SQL, PHP
- **Frontend Technologies:** HTML5, CSS3, Sass, Angular, Flask, Bootstrap, jQuery, AJAX, React, Vue.js, Ruby on Rails
- **Backend & Cloud:** RESTful APIs, Node.js, Google Cloud Platform (GCP), Spring Boot, Hibernate
- **Databases & Operating Systems:** Oracle, MySQL, MongoDB, PostgreSQL, SQLite, Windows, Linux, MacOS
- **Version Control, Tools & IDE:** Git, GitHub, npm, IntelliJ, Eclipse, VS code
- **Microsoft Office Suite:** Excel, PowerPoint, Word

CERTIFICATIONS

- AWS Certified Cloud Practitioner, Amazon Web Services (AWS), March 2023
- Python for Everybody Specialization by University of Michigan, through Coursera, April 2020

VOLUNTEER EXPERIENCE

- Volunteered in Force for Good, a sustainable tech solutions program, by creating a WordPress website for an NGO-Chalo Network, and worked on modules for agent training and website translation by implementing different plugins in 2021-22
