EDUCATION

University of Southern California Master of Science in Computer Science (GPA: 3.61/4.0) Coursework: Web Technologies, Database Systems, Machine Learning, Information Retrieval, Analysis of Algorithms	Los Angeles, CA Aug 2023 - May 2025
University of Mumbai Bachelor of Engineering in Computer Engineering (CGPA: 3.9/4.0)	Mumbai, India Aug 2018 - June 2021

PROFESSIONAL EXPERIENCE

JPMorgan Chase and Co. Software Engineer II	Mumbai, India July 2021 - June 2023
- Led collaboration with cross-functional teams (development, product management, QA) to implement 27 new functionalities in payment processing systems, ensuring feature deployments aligned with best practices for safety and user impact - Managed code reviews, integrated security measures, and optimized features for scalability, improving system performance by 30% and reducing incidents by 35% - Delivered 4 fintech applications across multiple environments, ensuring reliable, extensible code using Java, Spring Boot, and Jenkins CI/CD pipelines - Produced unit tests and automated processes to increase code coverage, boosting automation metrics and system reliability - Applied debugging tools to proactively address issues and optimize features for high performance and reliability - Collaborated in agile environments using Atlassian tools to streamline project management, track progress, and reduce delays	
International Digimedia Fullstack Web Development Intern	Mumbai, India June 2019 - July 2019
- Built interactive widgets and created frontend animations using HTML5, CSS3, and jQuery, enhancing user engagement for a hospitality job portal - Resolved 4 critical bugs and optimized website performance, reducing bounce rate by 15%	

LEADERSHIP EXPERIENCE

University of Southern California Front End Developer	Los Angeles, CA Oct 2024 – Present
- Designed scalable, user-friendly digital platforms using HTML5, CSS3 and JavaScript to support mobile giving and crowdfunding campaigns, contributing to over \$150,000 in fundraising - Developed responsive, interactive landing pages with real-time updates and donation features, enhancing engagement for over 50,000 users while ensuring accessibility and high performance	
USC GRIDS (Graduates Rising in Information and Data Science) Web Developer and E-board member	Los Angeles, CA Feb 2024 – May 2024
- Revamped the committee website using HTML, CSS, and Typescript increasing user engagement and engagement - Partnered with stakeholders to define and implement new features, ensuring continuous platform improvements	

PROJECTS AND PUBLICATION

eBay Product Search Website and Android App Angular, Node.js, Typescript, HTML5, CSS3, MongoDB, Android Studio, Java	
- Built a responsive web application leveraging Angular, Bootstrap, and Node.js to fetch and display eBay products via an API, with a feature to store user wishlists in MongoDB, and deployed the solution on Google Cloud Platform (GCP) - Developed a companion Android app using Android Studio, integrating a Node.js backend to allow users to search and view eBay products, save items to a wishlist, and share them seamlessly on Facebook, enhancing user engagement and experience	
Grow Slide (Unity 2D Platformer Game) Unity, C#, WebGL	
Designed a 2D platformer game with innovative gravity mechanics, applying design documentation and system interaction knowledge to enhance gameplay	
Predicting Customer Churn in Bank using ANN Python, NumPy, Keras, TensorFlow, Sklearn, Pandas, Graphviz	
Designed a predictive model using Artificial Neural Networks (ANN), classifying customer attrition rates in a bank with an accuracy of 86.31% and visualizing Neural Networks for clear interpretation and insights	
Fine Dine with Augmented Reality (AR) – Mobile App Unity, Vuforia, Blender	
- Developed an AR-based restaurant app that enhanced customer satisfaction by 20%, allowing users to explore 3D visuals of dishes and ingredients through digital or physical menu scans, complete with interactive feedback mechanisms - Gandhi, M., Kolkur, S., Sakpal, R. & Madhwani, B. (2021, January). Augmented Reality Based Interactive Mobile Application for Restaurants. In Eleventh International Conference on Advances in Computer Engineering, ACE 2021	

TECHNICAL SKILLS

Programming Languages:	Python, Java, C#, JavaScript
Web Technologies:	HTML5, CSS3, Bootstrap, Angular, jQuery, Node.js
Databases:	MongoDB, MySQL, PostgreSQL, Oracle
Cloud & DevOps:	AWS, GCP, Jenkins, Docker
Tools:	Git, Bitbucket, GitHub, IntelliJ, VS Code, Eclipse

CERTIFICATION

AWS Certified Cloud Practitioner, Amazon Web Services (AWS), March 2023
--
